EDUCATION

Rutgers University-New Brunswick
Economics; Business Administration

May 2021

GPA 3.443

WORK EXPERIENCE

KPMG - Business Analyst

2022-Present

- Analyzed and processed tax and financial data received using KPMG's proprietary tax technology tools to produce tax compliance client deliverables
- Contributed to multiple processes and aspects of tax compliance projects to deliver completed work products within defined timelines and quality control standards
- Created ad hoc reports for senior management to track new changes to tax code across the country, and ensured accurate documentation of project process and findings
- Participated in periodic training and professional development to optimize the use of tax technology and improve the quality of tax deliverables and services provided

Best Buy - General Warehouse Worker

2020-2022

- Responsible for logistics surrounding delivery loads processing receipt of merchandise for inbound and outbound trucks in a high volume storefront
- Improved warehouse efficiency in other Delivery Distribution Centers across the country
- Trained newly hired and current employees across all departments on operations, safety and efficient warehouse procedures

Century 21 Louis Pompilio, Inc - Real Estate Agent

2018-2020

- Created and rolled out marketing campaigns for properties via advertisements
- Mediated negotiations between buyer and seller in alignment with all legal and organizational procedures
- Advised clients on prices, mortgages, market conditions, and related information

Programming Projects

Data Driven Blog using R

Mar 2021

- Using real world data from the web, I wrote a report that showed illustrations with plots as well as showing statistical analysis. Using data from AirBnB, I tested to see if location influenced the price of a listing within New York City.
- GitHub link: <https://github.com/ChristopherRobles/Data-Driven-Blog>

Data Visualization using Tableau

Nov 2021

- This visual is based on data from Forbes on top paid athletes over time. The goal was to see how different sports fared on this list across this 31-year span.

Google Data Analytics Capstone

Feb 2022

- This capstone project put together everything learned throughout Google's Data Analytics Course. I discussed my full process of cleaning, analyzing and visualizing the data, along with my final suggestions.
